Education

Technische Universität Wien — Vienna, Austria
Master's Degree, Logic and Artificial Intelligence — *Oct 2026 - ongoing*

- Relevant coursework: Logic and Computability, Formal Methods for Systems Engineering, Computer-Aided Verification

Sapienza University of Rome — Rome, Italy
Bachelor's Degree, Computer Science — *Sep 2023 - July 2026*

- **Graduation Mark:** 110/110 cum laude
- 29.60/30 weighted GPA
- Recipient of the "Studente Meritevole" merit scholarship

Liceo Classico T. Tasso — Rome, Italy
High School Diploma, Classical and Ancient Studies — *Sep 2018 - July 2023*

- Graduation mark: 100/100 cum laude

Research

BSc Thesis: "Complexity Characterization for Norm Synthesis in ATL*"

Supervisor: Prof. Giuseppe Perelli

Experience

Student Collaboration Grants — 2025 – 2026
Department of Computer Science

- **Computer Lab Supervisor**
  - Managed opening operations, controlled facility access, and oversaw department computer laboratories during designated hours.
- **Assistant to the Third Mission & Public Outreach Coordinator**
  - Reorganized the Department's website, implemented automation scripts to improve usability, updated and translated content.
  - Collected and categorized Department activities, maintained updated records, and supported outreach initiatives.

Faculty Assembly Student Representative — 2024 - 2026
Faculty of Information Engineering, Informatics and Statistics

- **Event Organization:**
  - *"Digital Freedom" Seminar:* co-organized a seminar on digital rights featuring the founder of ParrotOS (Lorenzo Faletra); co-managed logistics, and moderation; created promotional graphics.
  - *Distinguished Lecture (Dr. Richard Stallman):* collaboratively secured Dr. Stallman as a guest speaker, successfully inviting and hosting him for a lecture on Free Software.
  - *"LaTeX Lab" Workshop:* helped in designing and delivering a two-session technical workshop on academic writing, mathematical typesetting, and advanced document structure.

Department & Teaching Area Student Representative — 2023 - 2026

Department of Computer Science

– Served on the **Teaching Area Council** (2023 – 2025) and the **Department Council** (2024 – 2026), participating in governance decisions regarding teaching policy and curriculum development.
– Gathered feedback from students, reporting concerns and raising issues to improve the learning environment.

Extracurriculars

European Summer School in Logic, Language and Information (ESSLLI) 3-14 Aug 2026

Broadened my knowledge by attending seminars exploring advanced concepts in theoretical computer science and logic.

Open Day Speaker - Department of Computer Science Feb 20, 2025

I spoke at the department's annual open day, sharing my experience as a Computer Science bachelor's student. I gave a personal testimonial, offered advice to prospective applicants, and helped provide insight into the course and university life.

Sapienza Students Network - Staff Member and Contributor 2024 - 2025

[Official site] - [GitHub]

Collaborated on an independent student-led initiative fostering collaboration and community. Assisted in maintaining and organizing open-source learning materials, contributing to GitHub repositories covering multiple course subjects, sharing resources, exercises and past exams to support peers' academic success.

Projects

Open-Access University Notes Repository GitHub

Throughout my Bachelor's degree, I have maintained a public repository of course notes in Markdown, LaTeX, and handwritten formats, aiming to support open education and make learning resources freely accessible.

Interactive Hoare Logic Proof Assistant - Standard ML GitHub

Developed an interactive SML tool to verify imperative programs via Weakest Precondition (WP) calculus and a non-linear proof tree navigator. Integrated **sequitur-sml**: a custom decision procedure for linear arithmetic implications using Fourier-Motzkin Elimination, GCD tightening, and DNF normalization (including a backtracking "witness mode" to generate counterexamples).

Languages

Italian Native proficiency
English C2 (IELTS 8.5)
French Elementary (A1-A2)

Interests

Research: classical/computational logic, formal methods (automata/game theory), automated deduction, programming language theory.

Personal: literature, philosophy of language, cinema, film photography, graphic design, tea collecting, volleyball (9 yrs).
